BISBEE GIRLS VICTORIOUS.

Bisbee high girl basketball players won all sorts of glory last night when they smothered their rivals from Benson high by the impressive score of 43 to 3. Bisbee boys basketballists were less fortunate and dropped their match to the Benson lads, 35 to 28. The visitors were entertained by an informal dance which commenced immediately after the basketball.

You can get your knives, shears and saws, even your appetite sharpened at the Fix It shop. A. Greenwald, Brewery Gulch. Phone 618. (Advertisement.)

COPPER QUEEN DANCE.

The largest crowd in the history of the Old Opera House enjoyed the dance given last night by the Copper Queen Band. Following the splendid concert on Main Street many accompanied the musicians to the hall, while others arrived later. The evening was a jolly one for all participating and proves that Bisbeetles enjoy both good music and the delightful facilities for dancing attending.

BIRTH OF DAUGHTER.

J. W. Corcoran, the popular Czar miner, was busy, Saturday night, passing the cigars. Corcoran was wearing a broad smile which caused queries from friends who were informed of the arrival of a daughter, born yesterday afternoon, at the Copper Queen hospital. Both mother and child are doing well. Mrs. Corcoran was formerly Miss Agnes Johnson, known as one of the most popular and efficient members of the clerical department of the Phelps Dodge store.

PRESCOTT BOY GETS ESTATE OF \$10,000

Ralph Rowland, Heir to Pioneer's Wealth, Nephew of Mrs. Warner of Bisbee.

An estate valued at \$10,000 becomes the property of Ralph Rowland of Prescott, a 20-year old youth, cousin of Mrs. Leah Warner of the Warner Hotel, Bisbee, through the death of J. T. Brown, a pioneer of Prescott, with whom Rowland had resided since a lad of ten years.

Brown acquired valuable ranch properties near Prescott and in California and these, with a considerable sum of money, were bequeathed to young Rowland.

This charming mode is a simple creation and is made of white chiffon cloth overlaid with a black net with heavy graduated folds. The shoulder rosettes are an innovation thus far in spring styles but promise to become popular as the season approaches.

WETS ARE WORKING FOR "FAMILY" BARS

Such is Believed to be the Object of Saloon Men in Conference.

PHOENIX, March 4.—The return of the saloon under rigid restrictions will be the object of the Initiation Association fifteen members of which met at the Hotel Adams yesterday morning. The meeting was attended by former liquor dealers chiefly from Phoenix, but representing the saloons of a number of counties.

It is probable that the amendment which the association will initiate as a result of yesterday's conference will provide for what is sometimes and places called the "family saloon," depots in the cities for the distribu-

tion of liquors for consumption in the home.

After some discussion, the meeting concluded to initiate such a measure, but took no further action, sue has figuring on the exact provisions and wording of the amendment.

An important decision of the meeting however, was taken when it was decided not to support the amendment after its initiation with any vigorous campaign. There seemed to be a tendency to regard the Arizona after two years of drought as a matter for close study, rather than strong urging. The liquor men apparently desire to let nature take its course.

PROSPECTORS BUSY THROUGHOUT STATE

Bureau of Mines Suggests That Unbroken Specimens Be Sent for Analysis.

The innumerable number of samples that are being sent to the State Bureau of Mines for determination, evidence the fact that the prospectors of the state are busy, and from the determinations of these samples the prospector is finding something. Many of these samples, however, arrive in poor condition or improperly labelled, and, in order to give the greatest service the bureau desires suggestions.

It is better to send the material for determination in the shape of a specimen rather than a crushed sample, as the latter are not satisfactory for qualitative blow-pipe determinations. These specimens should be fresh and unaltered as possible, as it is much more difficult to determine minerals when they are partially decomposed. With a little more care on the part of the prospector, the service will be better. Samples should be marked on the outside with the name of the sender, and should be addressed to the State Bureau of Mines. The letter accompanying should not be enclosed as this is contrary to the postal laws.
